

# BIOTIC PLUS

## 9 live\* strains

D003

Biotic Plus contains 9 different live native bacterial strains, plus a small amount of the prebiotic FOS. This blend of native bacterial strains is designed to have activity throughout the whole digestive tract.

- The blend of strains allows for the positive bacterial effects to be exerted together in both the distal end of the small intestine and throughout the colon, thus balancing the whole intestinal flora. Moreover, the bacterial effect is strain-dependent, with each strain serving a specific inhibition purpose.
- Stable at room temperature so no need to refrigerate.
- Designed to help balance the intestinal flora of both adults (up to their early 40s) and children.
- 3.5 billion live viable dehydrated bacteria per capsule.

### Product Information:

30 capsules = 15-30 days supply

### Suitable for:

Men and women and children (aged 4 years upwards).

### Form:

Capsule

### Biotic Plus

Each capsule will provide on average 3.5 billion bacteria (at time of manufacture) consisting of:

*Lactobacillus acidophilus*

*Lactococcus lactis* spp. *Lactis*

*Lactobacillus rhamnosus*

*Lactobacillus casei*

*Lactobacillus plantarum*

*Bifidobacterium bifidum*

*Bifidobacterium breve*

*Bifidobacterium longum*

*Streptococcus thermophilus*

and 44mg of the prebiotic FOS

\* viable dehydrated cells which are reactivated upon digestion

**Ingredients:** *Lactobacillus acidophilus*, *Lactococcus lactis* spp. *Lactis*, *Bifidobacterium longum*, *Lactobacillus rhamnosus*, *Streptococcus thermophilus*, *Bifidobacterium breve*, *Bifidobacterium bifidum*, *Lactobacillus plantarum*, *Lactobacillus casei*, potato starch, fructo-oligosaccharides (FOS), magnesium stearate, ascorbic acid, hydroxypropyl methylcellulose (capsule shell).

**Suggested Intake:** 1-2 capsules daily, taken ½ hour after food, or as directed by a practitioner.

**Allergen Advice:** None.

**Contraindications:** None.

**Storage:** Keep cool, dry & out of direct sunlight.
