

HONEY BEE PROPOLIS

Extract equivalent to
750mg of propolis powder

P341

Propolis is one of nature's richest sources of bioflavonoids. Over 180 natural compounds have been identified including trace levels of vitamins, minerals, fatty acids, and amino acids.

- Propolis is a sticky resin gathered by bees from leaf buds, the bark of trees and other botanical sources. Bees metabolise the propolis and use it to seal, disinfect and protect their hives. Propolis is used by the bees for a range of protective purposes within the hive due to its natural antibiotic, anti-fungal and antibacterial properties.
- Propolis is a rich source of bioflavonoids, and this is one of the reasons that it is considered to be an excellent and natural antioxidant.
- Our propolis extract comes from a sustainable source and does not contain fillers and binders; it is pure and additive free.
- Each capsule gives equivalent of 750mg propolis.

Product Information:

30 capsules = 30 days supply

Suitable for:
