PANTOTHENIC ACID (Vitamin B5) 100mg

V106

Pantothenic Acid plays a vital role in cell metabolism as a coenzyme and participates in the release of energy from carbohydrates, fats, and proteins.

- Contributes to the synthesis and metabolism of steroid hormones and may therefore be used by the adrenal glands in high quantities in times of stress.
- It also contributes to mental performance and the release of energy from food to help with reduction of tiredness and fatigue.

Product Information:

60 tablets = 60 days supply

Permitted Health Claims:

Pantothenic acid contributes to normal:

- Energy-yielding metabolism and mental performance, as well as the synthesis and metabolism of steroid hormones, vitamin D and some neurotransmitters.

Pantothenic acid contributes to the reduction of tiredness and fatigue.
